Happenings in and Around Campbell During the Past Week.

Mrs. Coates entertained Mr. and Mrs. Walters of Mountain View last week.

Rev. Atkinson received a cable Monday stating that the Trade (Imperial permission) had been granted for the construction of his brother's hospital and that the walls had been commenced.

The boys gave a musical entertainment to Mr. and Mrs. Warren French Wednesday night but got a gold reception.

Rev. Atkinson took a 27 mile drive Tuesday up on the mountains with his nephew from Wisconsin.

The W. C. T. U. will meet with Mrs. Hill on Wednesday afternoon May 26th at 2:30 p. m.

High School

Campbell plays Mountain View at tennis on the Library court Saturday morning for the I. A. U. championship series.

The Freshmen's picnic will take place Saturday. They are going to Long Bridge to spend the day.

The Campbell High School is champion of the I. A. U. in Baseball and besides the fine Loving Cup which they were given May Day, they will receive the I. A. U. Pennant for Baseball. The percentage of the various teams in the league are:

	Hs.	Won	Lost	P. C.

Farmers Attention!

Instruction Train Will Visit Campbell and Give Lecture on Agriculture May 24th.

The Farmers' Demonstration Train, (composed of three exhibition cars, a parlor car, pullman and a baggage car, a trainload of magnificent exhibits, demonstrating the value of improved methods, selected seed and successful fighting of disease,) which has been going all over the state instructing the farmers, will be at Campbell May 24th from 8:50 a. m. to 11:30 a. m. and will hold a lecture while here.

Prof. Clark, Superintendent of the Department of University Extension of Agriculture and 10 or 12 other professors will address the farmers on the best methods of raising fruit, grain and hay, how to fight pests and how to make the most out of the land.

The professors particularly would like to be asked questions by the farmers. All will be cheerfully answered and fully explained. The most vital questions the farmers around here could ask are 'how to fight Thrip' and 'are the farmers keeping their soil fertile enough to make good crops of fruit on the trees.'

The lecture train will be at the Campbell depot and every farmer should be present and learn all he can. It is no scheme to get your money. It is simply an expedition to educate and instruct the farmers. It is free. Let all the Campbell farmers show interest in this. Tell your friends and don't forget, for your own benefit, to be at Campbell depot May 24th at 8:50 a. m.

Next week will be our Memorial issue. We will have special numbers, stories, poems and pictures, which will be our contribution to the Departed Ones who died fighting for our Country. It will be nothing 'extra fancy' but will be our best. We hope it will be appreciated by our readers and the community generally.

Mr. and Mrs. Hugo Ehret and son of Belleville Ill. are visiting Mrs. Ehret's parents Mr. and Mrs. J. G. Relfe of Central Av. for the summer.

Mrs. B. W. Sloan of Berkeley is visiting Miss Davis on her return from the Federation of Clubs at Del Monte.

Portola's Beauty

Looks familiar this picture, don't it? Well you see we ran it on the back page last week without any description. We did not want to kill you with suddenness. No one has been in to knock us over for printing it yet so we'll get bold and tell you about it.

You see, she's supposed to be the most beautiful girl in California, at least by the ones who selected her, the Executive Committee of the Portola Festival to be given in San Francisco. They tell us that over 2000 photos were sent to them and they finally picked out the above. My, there must have been an awfully homely bunch of photos to select from if this was the best. We have prettier girls than that right here in Campbell. Yes sir, we can go out and show you a

dozen anytime.

Ah! but here's the story. She is Miss Vergilia Bogue of San Francisco. Don't know her? Oh, she is a very pretty girl. Why she is a descendant of De Grasse, De Lawrence, Bogue and Baron Charles de Russell. Her grandpaw carried a musket in the Revolution. She was educated in United States, Spain, Algeria, Italy, France and England. She is an accomplished musician and has a rare voice. (She looks it all right. Bet it is louder'n a steam caliope like they use in a circus.) Her dad (now's where the main mark of beauty comes in) is Vice-President and chief engineer of the Western Pacific Railroad Company and is rich. Now that's how beautiful she is. Ain't it awful, Mable?

The W. C. T. U. held a convention echo meeting at the home of Mrs. Gilman, Friday afternoon, May 13th. Mrs. Brown gave a very satisfactory report of the convention and others told what had most impressed them.

Mrs. Carrie C. Ayres and daughter Mildred are visiting Mr. and Mrs. Whitman. They return to their home in the city.

Mrs. Dorrety, mother of Mrs. L. C. Watson, has been taken very ill.

B. O. Curry's Real Estate Agency of Campbell, Cal.

Firemen's Ball and Social.

The local Firemen are going to give a Ball and Social Friday evening May 28th for the benefit of the Company, who are trying to raise funds to purchase a pumping truck. They are working untiringly to protect the town and take this method of raising enough to get an apparatus to increase the water pressure. As it is now, with the pressure we now have, there wouldn't be enough water coming from the nozzle to take a drink from, and should a fire get started here, it would not suffer from water very much. The boys and men in the company have seen this, and having enough get up and go in them to DO something, are trying to give us good fire protection. They merit the support of every one in town, whether you care to dance or not. Every business man and property owner should contribute

something towards this cause. If you don't believe in dancing you can enjoy a social time in the Banquet Hall below, and all can have a fine time and at the same time help a good cause along.

The Ball will be given in the Odd Fellows Hall, Friday evening May 28th at 8 o'clock. The price of tickets will be reasonable, as they are but 50 cents a couple. Refreshments of ice cream, cake and soft drinks will be served in the banquet hall and will cost extra. Tickets can be secured from any in the fire company and also can be purchased at the butcher shop.

The Odd Fellows' Hall Association and Bohnett's Orchestra have donated their services to the Company. Now let's all get out and get the fund started by buying a ticket anyhow. All together now.

Assemblage of Paragraphs That Pre-
sent Important Occurrences
in Condensed Form.

Oakland.—A foxtail in Albert Murdock's ear sent him to the Emergency Hospital for treatment at an hour when most people are in bed. The piece of grass was removed, and Murdock said that he got it from sleeping in a haystack while en route from Los Angeles.

Los Angeles.—Excluding her husband, a well known clubman, from her will entirely, Mrs. J. W. Winston, who died at Monrovia a short time ago, left a fortune of \$200,000 in trust for her five children. Mrs. Winston was the daughter of Millionaire L. L. Bradbury, who died here several years ago. The fortune came from mines in Mexico.

San Jose.—John Collins, a lineman in the employment of the United Gas and Electric Company, was electrocuted while at work on Market street, near Santa Clara. He had just climbed to the top of a telephone pole and strapped himself to it when one hand came in contact with a live wire. He was a native of this State, aged 35, and a widower with three boys.

Oakland.—The wearing of French heels may be ranked as contributory negligence if the owner falls and is injured in alighting from a street car. Mrs. Anna Peterson sued the Oakland Traction Company for \$500 damages caused by a fall from a street car. The evidence showed that one of her high heels caught in the step and threw her to the ground. The case was dismissed.

Sacramento.—Mrs. Saki Yasumura, 28 years of age, wife of Takesaka Yasumura, a wealthy Japanese farmer of Vorden Landing, thirty miles down the Sacramento river, was murdered by one of her husband's ranch hands, K. Ogawa, who shot her through the head while she was bathing. He left a note declaring he killed the woman because she was untrue to her husband, advising him to go back to Japan and get another wife.

Oakland.—Accompanied by her 8-year-old daughter and a maid, Mrs. Hazel Moore, reputed affinity of Adjutant General Hamilton of the Washington State National Guard, arrived here last week and barricaded herself against all callers. Hamilton is now in the Olympia jail, charged with embezzling \$50,000 from the funds of the State militia, the common rumor being that most of the money was lavished on the woman.

Portland, Ore.—Arrested for being clad in men's attire, Mrs. Dora Deligne of North Yakima, Wash., was released when it was shown that, in company with her husband, M. Deligne, and an invalid brother, Ernest Paradise, she was walking from her home to California in search of health. Mrs. Deligne, who has been married only five months, parted with her auburn tresses and donned jumper, overalls, cowboy hat and moccasins for the journey.

Modesto.—The fourth annual fiesta at Modesto, under the auspices of the Women's Improvement Club, will be held here during the three days and nights beginning May 27th and ending May 29th, and will be whole days and nights of fun and frolic. The main features of the celebration include a grand parade, fiesta carnival, street fair, toyland, band concerts, cake walking contests, electrical displays, masked ball, confetti carnival and over twenty other attractions.

Napa.—At the session of the State convention of Hermann's Sons in this city a resolution was adopted providing that delegates to the national grand lodge, which meets in Denver in September, use their influence to secure the adoption of a new law that only members of the Caucasian race be eligible to membership in Hermann's Sons. This is intended to shut out Japanese and Chinese from membership in the Order. Santa Rosa was selected as the place for holding the State convention in 1910 after a lively contest with San Jose.

DAIRY COW BLAMED FOR SPREAD OF WHITE PLAGUE

Nathan Straus Discusses Battle Being
Urged Against Tuberculosis.

Washington.—That the vigorous campaign against tuberculosis has failed to check the great white plague was the startling charge made by Nathan Straus, the New York philanthropist, at the fifth annual meeting of the National Association for the Study and Prevention of Tuberculosis in this city last week.

Mr. Straus backed up his assertion by official statistics from the New York health department, showing an increase of 33 per cent in two years in cases of tuberculosis in the city that Dr. Koch described as leading the whole world in the fight against the disease.

The reason for this failure to make headway, Mr. Straus declared, was the neglect of the mischief wrought by the tuberculous dairy cow. Citing the results of scientific investigation and his own 18 years' experience in saving lives, he summed up by saying that the abolition of tuberculosis would begin when it was made a crime to sell milk unless it came from tuberculin tested cows or those which had been properly pasteurized.

Monument to Confederate Jailor.

Andersonville, Ga.—The monument erected by the Georgia division, United Daughters of the Confederacy, to the memory of Captain Henry Wirtz, who was in charge of the Federal prisoners confined at Andersonville in 1864-65, was unveiled with appropriate exercises. The town was thronged with visitors. There were many relatives of the 13,000 warriors of the blue who died in the Andersonville prison. The stars and bars of the Confederacy were everywhere in evidence.

Steam to Supplant Motor Cars.

Sacramento.—The Southern Pacific Company is preparing to replace its motor cars on the runs between Sacramento and Colfax and Sacramento and Folsom with steam trains on account of the heavy travel. Passenger traffic on both routes is rapidly growing the capacity of the motor cars, which have developed this business, where only a few months ago the railroad company doubted whether the extra service would pay.

Medal for Bravery.

Dunkirk, Ind.—The "War Department at Washington has awarded to Amos Weaver of this city a medal for conspicuous bravery in the Philippines. Weaver formerly was a sergeant in Company F, Thirty-sixth United States Infantry, and on November 5, 1899, he alone routed a band of fifteen insurgents, killing four and wounding several others.

Free Employment Bureau.

New York.—The first bureau of the National Employment Exchange, which was incorporated on April 22d to solve the present day labor problems, was opened last week at No. 14 State street. Any man seeking manual labor will be free to enter his name without charge. Neither will it cost an employer anything to secure labor.

Turpentine Trust Officers Convicted.

Savannah, Ga.—"Guilt of conspiracy to monopolize interstate trade" was the verdict brought in by the jury in the case of the so-called "turpentine trust." The names of the two indicted corporations are omitted and the verdict applies only to five officers. The maximum sentence is a fine of \$5,000 and a term of one year in prison.

No Gold Lace for Roosevelt's Son.

Hartford, Conn.—Major Theodore Roosevelt Jr., son of former President Roosevelt, will not serve as military aid on Governor Wex's staff. The latter reappointed Governor Lilley's staff as his own, but Major Roosevelt's name did not appear, he having declined to serve.

Last Ride on Brakebeam.

Bakersfield.—William O'Donnell, 28 years old, a tramp with wealthy relatives in Cleveland, Ohio, died as the result of injuries received while trying to board a northbound freight train while under the influence of liquor.

Wrights Incorporated.

Berlin.—The Wright Flying Machine Company, Ltd., has been organized here with a capital of \$125,000. It will construct and operate aeroplanes on the Wright system.

Quakes in Ecuador.

Guayaquil, Ecuador.—Ecuador has been experiencing earthquakes during the last fortnight.

Woman Suffrage Condemned by Great Britain's Queen

London.—Queen Alexandra does not believe in "woman's rights." Her Majesty let it be known through Princess Louise, who at the opening of the nurses' congress said:

"Queen Alexandra has the fullest sympathy in your work. She feels it is a work women can do. Some women nowadays try to be like men, but nursing is work men cannot do."

The late Queen Victoria has pronounced views about woman's proper sphere. In a letter to the King of the Belgians she wrote:

"We women are not made for governing and if we are good women we must dislike these masculine occupations."

In a letter to Sir Theodore Martin her Majesty was more emphatic. She

wrote:

"The Queen is anxious to enlist everyone who can speak or write to join in checking this mad, wicked folly of woman's rights, with all its attendant horrors on which her poor feeble sex is bent, forgetting every sense of womanly propriety. Lady ought to get a good whipping. It is a subject which makes the Queen so furious she cannot contain herself. God created men and women different; then let them remain each in their own position. Women would become the most hateful, heartless and disgusting of human beings were they allowed to unsex themselves. And where would be the protection which man was intended to give the weaker sex?"

Divorce Mill Separates Seven Couples in 28 Minutes

San Francisco.—Seven divorces in twenty-eight minutes—just four minutes to a divorce—was the new high-water mark in speedy dissolution of the marriage bond set by Judge Cabaniss a few days ago. Seven unhappy wives found the task of divesting themselves of seven wayward husbands one of ease and dispatch. The judge was in a hurry. Verbose attorneys had the questioning witnesses taken out of their hands by the court and only strictly relevant questions were asked.

Judge Cabaniss usually allots the half hour between 9:30 and 10 A. M. to hearing divorce matters. It was 9:35 when he ascended the bench. That lost five minutes and had to be made up, and so it was that when the clock stood at 10:30 o'clock seven marriages had been unmade.

None of the cases were contested. The husbands seemed to have no objection to their wives obtaining divorces. But at that the testimony of two witnesses had to be taken in each case—the plaintiff herself and one corroborating witness. To keep the average time devoted to each case down to four minutes it was necessary to rattle out the questions and answers with a celerity that left Court Reporter Angelo Byrne gasping when it was all over.

Black Ants Successfully Used to Rid Trees of Scale

Ukiah.—Professor Harlan, who is visiting in this city, but hails from the southern part of the State, has discovered that the ordinary black ant will remove the scale from fruit trees without injuring the trees or leaves in the least. He says their work is more complete than that accomplished by spraying or by any of the imported insects.

The ants are captured by placing a plate of sugar near an ant hill, and when covered with ants the plate is

put in the forks of the infected tree. The ants leave the sugar and go to work on the scale. As soon as they all leave the sugar the plate is placed at the foot of the tree and as the ants come down after having cleaned the tree of scale they again assemble on the sugar, and are thus easily removed to another tree.

Several ranchers in this section have tried the scheme, and estimate that it will be worth millions of dollars to fruit growers.

"Robin Hood" of Russia Will Be Mourned by Peasantry

Mohilev, Russia.—The noted robber chieftain, Savitzky, the "Robin Hood" of the Russian revolution, has been killed by members of the rural guard in a neighboring village after a fight that lasted for four hours.

Savitzky was a high school student when he took to brigandage. He had been the terror of the police of the provinces of Tchernigov and Mohilev for several years, but he was a sort of

amusement to the rest of Russia on account of his dare devil exploits.

He delighted in playing fantastic tricks upon the police. Once on a wager, disguised as a priest, he visited the governor of this province and various other officials. It was his custom to rob only the rich and he distributed his spoils among the peasantry. He was betrayed by a member of his band.

No Roosters Will Be Allowed in Nation's Capital

Washington.—Roosters may no longer be kept in the District of Columbia. This is the principal burden of the new "chicken" regulations promulgated at the Health Department of the District. The rules specify under what conditions chickens may be kept, stipulating just what care must be given the chicken-houses and yards. "But the gem of this series

of "chicken regulations" is the following:

"VI.—No roosters may be kept on the premises."

A fine of from \$2 to \$10 a day is provided for all violations. The police say they are tired of the complaints of citizens who own alarm clocks and don't want to be awakened by cock-crowing. Hence the rule.

Cable to Venezuela.

Caracas, Venezuela.—The cable connecting Venezuela with the outside world was opened to the general public last week. The tolls between Caracas and New York in either direction have been reduced to \$1 per word.

More Roads to the Coast.

Chicago.—Construction of branch lines which will add over 1000 miles to the Pacific Coast extension of the Chicago, Milwaukee and St. Paul railroad will soon be undertaken by that road.

New Balloon for the Army.

Washington.—Another balloon to take the place of that destroyed several days ago at Fort Omaha is to be purchased by the Signal Corps of the Army. The capacity will be about 20,000 cubic feet and the cost about \$2000.

Will Celebrate Anniversary.

Menlo Park.—The first anniversary of the formation of a branch of the Knights of Columbus in this county will be celebrated here June 28. The event will be one of importance in fraternal and church circles.

CITIES IN ILLINOIS CANNOT CHECK AUTOMOBILE SPEEDERS

State Law Prohibits Municipalities En-
forcing Safety Ordinances.

Chicago.—Chicago and other cities in Illinois are tied hand and foot from legislating to regulate automobiles, even though safety to life and limb be involved, according to an opinion given by the Municipal Law Department. The opinion is in response to a communication from Peter H. Hoffman, Coroner, to Mayor Busse, in which the county official sends transcripts of inquests on two pathetic automobile killings and asks for certain ordinances restraining reckless chauffeurs. Howard W. Hayes holds that the State law licensing automobiles specifically prohibits municipalities from passing any ordinances concerning speed or other safety rules.

"The State law says that no ordinance limiting or restricting the use or speed of private automobiles shall be passed by any city or village," said Hayes. "The section is conclusive on the subject. The State law is strongly in favor of automobilists, and their machines and influence were much in evidence at Springfield when it was passed two years ago."

Pioneer Miner Passes Away.

Waukegan, Ill.—Clark G. Corser, one of the oldest residents of the county, died last week at the home of his daughter, Mrs. Smith of Benton, at the age of 93. Corser had lived seventy years in Lake county, being one of the many to get the gold fever in 1850 and traveled to California. Fortune smiled on him, and he returned comparatively wealthy. He is survived by two children. He lived at the south end of Zion, and used to defy Dowie by wandering about the new city smoking an old pipe.

Anti-Treat Bar Started.

Des Moines, Iowa.—The first anti-treating saloon in the United States will be opened May 22d. Permit to open was granted to A. S. Kirkhart, who controls fifteen saloons. Kirkhart declares treating will not be tolerated. The bartenders will try to induce drinkers to accept a substitute for liquor in the form of buttermilk, sweet milk, tea, coffee and other soft drinks. The liquor habit will be discouraged as far as possible.

Sockeye Salmon Run.

Seattle.—The sockeye salmon run now at hand is expected to break all records, according to former State Fish Commissioner T. R. Kershaw, the removal of dams in the Fraser River and its tributaries having restored the breeding grounds. Fish traps extend from Admiralty Head to Point Roberts, whose daily catch will run between 20,000 and 100,000 sockeyes.

Jimmy Britt to Meet Johnny Summers.

London.—Jimmy Britt, the California lightweight, and Johnny Summers, the English pugilist, who have met twice in London, have agreed to terms for a third battle, to take place at the National Sporting Club on June 17th. They will box at 133 pounds, weigh in at 3 o'clock on the day of the contest. They will box twenty rounds.

Cody Flies at Last.

London.—Captain F. S. Cody, whose failures in his experimental aeroplane work for the British army have become a standing joke in the London newspapers, seems to have at last accomplished success. In the presence of the Prince of Wales he flew for nearly a mile at Aldershot a few days ago. Captain Cody is an American.

Bruised by Horse and Dies.

New York.—Harry Beebe, a Lander (Wyo.) cowboy, with Buffalo Bill's show, is dead. Beebe's great toe was severely bruised recently, being stepped on by a horse ridden by a fellow cowboy. Partial paralysis developed and death followed. He was 27 years old.

Token of High Esteem.

Paris.—The French government, as a mark of the high esteem in which it holds Henry Vignaud, first secretary of the American Embassy here, has made him a grand officer of the Legion of Honor.

Florence Nightingale is 90.

London.—Florence Nightingale, who has just entered her ninetieth year, has received innumerable congratulatory messages. She is very feeble and is confined to her rooms.

Will Aid Railroad Telegraphers.

Atlanta, Ga.—A woman's auxiliary to the Order of Railway Telegraphers has been organized here.

PITHY RESUME OF EVENTS OF ENTIRE WORLD

Brief Paragraphs That Give
Busy Readers Review of
Week's Happenings.

Summary of News Gathered by Cor-
respondents Located in Every
Quarter of the Globe.

Paris.—It is officially announced that Emperor Nicholas will return the visit of President Fallieres during the coming summer.

Washington.—Physical breakdown, due, it is believed, to overwork while employed as a clerk at the White House, caused Thomas Hinterland, 46 years old, to commit suicide.

Laramie, Wyo.—The Union Pacific Rolling Mills at this place resumed operations last week, after having been closed since December, 1907. The mills will be kept running indefinitely.

Tokio.—The trade returns show that during the last four months exports have increased \$4,900,000, while there has been a decrease of \$19,750,000 in imports over the corresponding period of last year.

Montgomery, Ala.—The bill to prevent the sale and manufacture of such drinks as "hop jack" was declared valid by the Supreme Court. The dissenting judges feared that the first thing the country knew of tea and other beverages might be outlawed.

Jeffersonville, Ind.—A small boy threw a lighted match into a cage of monkeys that formed part of a circus parade. The cage was littered with straw, and before the attendants could pull out the beasts they were cremated. There were seven monkeys in the cage, all trained.

Caracas.—Cipriano Castro, the deposed President of the Republic, has been condemned by the courts to pay six years' rental and heavy damages for the arbitrary occupation of the Miraflores palace in this city. This building is the property of Senora Joaquin Crespo, widow of a former President.

Williston, N. D.—W. T. Poe, former city Auditor, was arrested on the charge of embezzling \$4,298 of city funds during his two years' term, which expired recently. He was released on \$7,000 bonds. Poe came from West Virginia four years ago and last fall was the Republican candidate for county Treasurer.

Victoria, B. C.—News was brought by the steamer Admiral Hamelin of a severe earthquake in Formosa, causing large loss of life, chiefly in the northern part. The center of the disturbance appeared to be in the sea off Keelung and Girau. The tremor, which was both horizontal and vertical, lasted about three minutes.

Albany, N. Y.—A defective cap, which was being put in place in a drill hole seventy-five feet deep and five inches wide and which was to have exploded a ton of giant powder at the stone quarry of the Callanan Road Improvement Company, exploded prematurely, killing twenty-nine men, of whom eight were Americans and twenty-one Italians.

Havana.—The House of Representatives by a vote of 52 to 20 passed the bill authorizing a national lottery. The general terms of the project, from which the Government expects to draw an annual revenue of from \$1,000,000 to \$2,000,000, calls for three drawings monthly, of which the number of tickets and the amount of prizes are to be left to the discretion of the Secretary of the Treasury.

Washington.—Captain Jackson Kirkman, formerly a Mississippi editor and well known Confederate veteran, died at a hospital here a few days ago. He was one of the officers known in the South as the "Immortal Six Hundred," who as prisoners of war were placed under Confederate fire on an island near Charleston by the Union army as a measure of retaliation. In late years he was a department clerk in Washington.

Chicago.—"Evening paper; Chicago Star!" That is the newsboys' cry that will soon be heard on the streets if plans now being formulated do not miscarry. The new paper is to be edited and published under the auspices of the Chicago Police Department. It will be devoted to the interests of Chicago policemen and the employees of other branches of the city government. The publication expects to have the largest staff in the world, counting each of the 4,000 members of the Police Department as a reporter.

Good Blood

Means good health, and Hood's Sarsaparilla has an unapproached record as a blood-purifier.

It effects its wonderful cures, not simply because it contains sarsaparilla but because it combines the utmost remedial values of more than 20 different ingredients. There is no real substitute for it. If urged to buy any preparation said to be "just as good," you may be sure it is inferior, costs less to make, and yields the dealer a larger profit.

Get Hood's Sarsaparilla today. In usual liquid form or in chocolate tablets known as Sarsatabs.

London's Tailors Debate on the Effect of Leg Covering.
Have trousers helped or retarded the course of civilization? was the question recently debated at a meeting of the tailor and cutter senate in Gerrard street, London.

The editor of the Tailor and Cutter revealed his secret yearnings for a return of knee breeches. "There are millions of microbes," he remarked, "in the turn-up of every trouser. Our most eminent Senators and others wear breeches at court, and even his majesty the King—who, it should be remarked, never wears a crease down the front of his trousers, but at the side—as soon as it is possible, assume either the kilt or knickerbocker for sporting and other functions. All the greatest discoveries, all the greatest triumphs, naval and military, have been achieved by men wearing breeches."

"The century of trousers," declared another speaker, "has been the century of peace, health and progress," and added that the progress had, however, assumed rather alarming proportions. "It seems to me," he said, "that the tendency of the age is against the wearing of clothes. There has been the rage for dispensing with boots, and now we have the hatless brigade, with many of those who possess hats carrying them in their hands along the streets. I am afraid it may be the same in regard to both breeches and trousers. Breeches are the mark of the funkey, the broad-arrow convict, and the taxicab chauffeur. Whatever trade may suffer, we must keep our trousers."

The technologic branch of the Geological Survey is experimenting with a new oxygen apparatus, which may be worn like a knapsack to permit a man to enter poisonous gases or smoke.

"Any particular brand?" said the man.
"Yes," said I, "the particular brand, Old Gilt Edge, and make it rye." And when I got it I went away happy.

Overcomes Loss of Nervous Force in Men and Women

Men and women who are nervous wrecks, who lack energy and ambition, who suffer with nervousness, dread, anxiety and a general inability to be happy or to act naturally and rationally at all times, may try this treatment with a certainty of astonishing results. The ingredients can be obtained separately at all well stocked drug stores. At any leading drug store get three ounces syrup sarsaparilla compound in a half-pint bottle. Get one ounce each of the following in separate packages: Compound fluid balmwort, compound essence cardiol, and tincture cadomene compound (not cardamom). Add balmwort to sarsaparilla; let stand two hours, then add other two, shake well and take a teaspoonful after each meal and one at retiring.

No Exact Equivalent.

"It would be correct to say, then, that you are on the water wagon, wouldn't it?" asked the reporter.

"No," said the distinguished actor; "that hardly expresses it. I have merely quit drinking coffee and taken to more wholesome beverages. You might say, perhaps, that I am on the milk wagon."

A CURE FOR FITS

The Treatment Is to Accomplish What Science Has Been Struggling to Attain for Centuries

The intense interest that has been manifested throughout the country by the wonderful cures that are being accomplished daily by epileptics, still continues. It is really surprising the vast number of people who have already been cured of fits and nervousness. In order that everybody may have a chance to test the medicine, large trial bottles, valuable literature, History of Epilepsy and testimonials, will be sent by mail absolutely free to all who write to the Dr. May Laboratory, 548 Pearl Street, New York City.

The "White" Rhinoceros.

If President Roosevelt expects to bag a really white rhinoceros in Africa he is likely to be disappointed, for there is no such thing, although there is a creature called by this name, says a writer. The animal is of a yellowish gray, not much lighter than some of its relatives that are not honored with the name of "white."

It is supposed that the hunters who first saw the creature viewed it against a very dark background and in bright sunlight. Apart from its color, however, the "white" rhinoceros has some distinctive characteristics. It is taller than others of its kind, and has a larger and squarer snout. It is more decidedly herbivorous. One of its two horns is sometimes dwarfed or wanting, which gave rise, as early as 1848, to the fiction of an African one-horned species of rhinoceros. Besides all this, the skin is closely covered with small tubercles.

The animal, like all African big game, has been rapidly disappearing, and by 1890 it had vanished from eastern Africa, except for a small reserve in Zululand. It is difficult to approach, as its scent is keen and its gait rapid.

Something in a Name.
Although New York has never had more opera than at present, and we are being constantly told that our public is opera mad, there are still some who are far from opera educated. When the new opera, "The Bartered Bride," was announced one of the first telephone conversations held by Max Hirsch, of the Metropolitan Opera House, ran:
"Hello, is this the Metropolitan?"
"Yes."
"Well, want two seats reserved for 'The Bartered Bride.'"

STORIES ABOUT SEALS.

How a Young One Was Made a Pet and Afterwards Ran Away.
Some people think that a seal has no intelligence, but a writer in Our Little Ones tells the story of a seal which was found by a man who was out fishing, and that later proved to be quite wise in its way. The seal was a young one, and the man found it fast asleep upon a dock, and gently lifted it into his canoe. The poor thing cried to get back into the water, but his captor wanted it, and so he carried it home, fed and petted it until it became quite tame and would go about the house like a little dog. Indeed, after a few weeks it grew so fond of its new home that it would not stay away from the house more than an hour at a time.

When it was let out of doors it would go to the rocks beside the sea—for the family lived near the seaside—and would slide down into the water and dive about for a while, catching fish. Then it would come back and climb up on the porch and lie there and cry to be let in. But one day he went out to get his dinner in the sea and that was the last ever seen of him. It was believed that he followed the tide far out into the ocean, and there met some of his old playmates, who persuaded him to stay with them.

Another story is told of a seal that resented an intrusion and whipped a monkey. This was a seal that belonged to a traveling show. After feeding the monkeys one day the keeper carelessly left the door of their cage open and in a minute they were out and swarming all over the menagerie. After an hour's hard chasing the keepers got the monkeys together again, all except Jocko, who would hang by his tail and grin just out of the keepers' reach.

At last they succeeded in cornering him, and in desperation he leaped to the cage over the seals, at the top of which was the opening through which the seals were fed. Finding his pursuers closely upon him, he jumped into the cage and down upon the seals' platform. The big performing seal resented the intrusion and proceeded to catch the monkey, now thoroughly frightened, between the huge flippers, alternately slapping and biting him. The teeth of the thoroughly subdued monkey did not stop chattering for half an hour after he had been rescued from his plight.

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."
Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."
Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."
Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."
Dr. C. C. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."
Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."
Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merits."
Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."

Golden Text—We believe that through the grace of the Lord Jesus Christ we shall be saved, even as they. Acts xv:11.

Verses 1-8—Are good men liable to hold wrong opinions?

When good men differ in opinion what is the better way in order to reach an understanding?

When a professed Christian gets angry with another Christian, on a mere matter of opinion, has he or not backslidden from the love of God, and what spirit does it show? (This question must be answered in writing by members of the club.)

Circumcision no doubt originated from supposed purposes of health, and physical cleanliness, and afterwards became a national institution of the Jews. State when God first made circumcision the sign, or token, of the covenant between him and Abraham and his seed, and to whom the rite of circumcision and God's covenant extended (See Gen. xvii.)

Is circumcision now essential to salvation?

Is the belief of any doctrine essential to salvation?

Verses 6-11—Is experience of God and his dealings with us, conclusive proof of the will of God in the matters which the experience covers?

Is thorough discussion in church courts a perfectly right way to arrive at the will of God on any matter?

Were those who taught that circumcision was essential to salvation, as well as being narrow, necessarily untrue men?

What is the difference between the "yoke" of the law and the "yoke" of Jesus? (v. 10.)

Verses 12-Recall some of the wonders done through Paul and Barnabas, among the Gentiles and say what bearing they had upon the dispute concerning circumcision?

Verses 13-21—Who was James, who next addressed the council?

James, the brother of Jesus, was the president of this council; is it probable that his address was of the nature of the judgment of the council on this question?

Verses 22-29—There seems to have been no formal motion passed by the council, but they appear to have reached an unanimous decision as outlined in the address of the president; say whether we are bound to take this decision as the voice of God.

In what particulars is the great wisdom of the council shown in settling this dispute?

Were each of the commandments given in verse 29 intended to be of lasting obligation, or were some of them only temporary?

From whom are Christians to get guidance on all matters in this day?

Verses 30-35—There never will be a time when disputes may not occur, in the church and between individuals; how should they always be settled?

Did this trouble in the church help it or hurt it, and does God always overrule trouble, whoever may be the cause of it, for the good of his children?

SUMMONS

In the Superior Court of the State of California, in and for the County of Santa Clara.

J. S. Spaulding, Plaintiff, vs. S. L. Mastie, Parish B. Ladd, Francis Clarke, B. F. Butte, and all other persons unknown, claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, Defendants.

The people of the State of California send greeting to S. L. Mastie, Parish B. Ladd, Francis Clarke, B. F. Butte and all other persons unknown, claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, defendants. You are hereby directed to appear and answer the Complaint in an action, entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Santa Clara, within ten days after service on you of this summons, if served within this county, or within thirty days if served elsewhere.

And you are hereby notified that unless you so appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the Complaint as arising upon contract, or will apply to the Court for any other relief demanded in the Complaint.

That the object of this action is:

1. To determine all of the adverse claims, interests in, right or title to, liens or clouds upon the said premises described in the Complaint herein or any part thereof claimed by said defendants or any or either of them.

2. That it be adjudged by the decree of this Court that the plaintiff is the owner of the premises described in the Complaint herein, in fee, free and clear of any interest in, right or title to or lien or claim upon the same or any part thereof by said defendants or any or either of them.

3. That the defendants, S. L. Mastie, Parish B. Ladd, Francis Clarke, B. F. Butte and all other persons unknown, claiming any right, title, estate, lien or interest in said real property or any part thereof, adverse to plaintiff's title thereto, or any cloud upon plaintiff's title thereto, and each and every of them be forever debarred from asserting any claims, right, title, estate, lien or interest in said real property or any part thereof, adverse to plaintiff, or any cloud upon plaintiff's title thereto, and for general relief.

That the property described in the Complaint and affected by this action is as follows: All that certain tract, piece or parcel of land lying and being situated in the County of Santa Clara, State of California, which is bounded and described as follows, to-wit:

Beginning at the Northeast corner of the North-east quarter of the northeast quarter of Section 30 in Township 6 South Range 2 West M. D. M. and running thence South along the line between Sections 30 and 29, 7.61 chs; thence West 20 chs, thence North 7.61 chs, to the dividing line of Sections 29 and 30 and thence East along said last named line 20 chs, to the point of beginning. Containing 15.22 acres of land and being a part of the Northeast ¼ of Northeast ¼ of Section 30 Township 6 South Range 2 West.

Given under my hand and the seal of the Superior Court of the State of California, in and for the County of Santa Clara, this 22nd day of April A. D. 1909.

Awkward, but No Chump.
Once there was a pretty woman who came upon a huge ostrich in the desert.

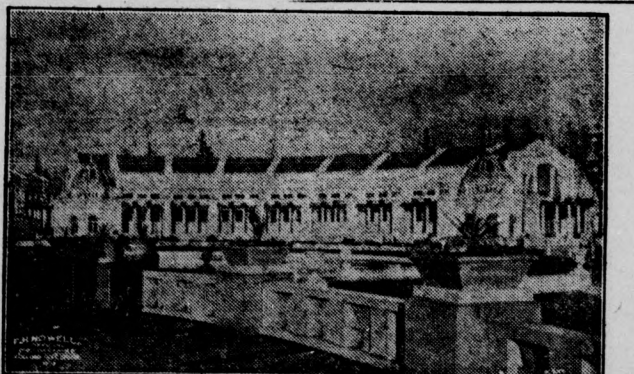

"Foolish bird," said the pretty woman. "You cover your head with sand and think you are out of sight."

The huge ostrich laughed.
"My dear madam," he chuckled, "there is nothing foolish about that. Don't you cover your head with a hat decorated with my feathers and think you are 'out of sight'?"

Moral.—The ostrich is an awkward bird and eats horseshoes, but he can hit back in other ways than with his big feet.—Chicago News.

Got Even With the Clerk.
Mr. Jawback—This gown is not becoming to you, and it is expensive. Why did you buy it? Mrs. Jawback—Because the clerk looked as if he thought I thought I couldn't afford it.—Cleveland Leader.

He that rises again quickly and continues the race is as if he had never fallen.—Molineux.

LOOKING ACROSS GEYSER BASIN AT HORTICULTURAL HALL.

No fairer scene can be offered any place than the outlook from the foot of the Alaska Monument on the grounds of the Alaska-Yukon-Pacific Exposition. Standing directly in front of the great building of the United States Government, the enormous golden eagle on his towering perch of northern gold keeps watch and guard over the most perfect exposition city that has ever been reared. Under his eye are gathered the rarest collection of man's examples of skill and art ever assembled, and these find shelter in a magnificent group of permanent and temporary buildings, whose architectural design and clever construction exemplify the very highest of man's inventive ability.

At night when the long twilight of the northern latitudes close down, the manifold beauties of the spot show their greatest charm. With the fading of day comes the romance of evening and the millions of lamps, made brilliant by electricity, flash their rainbow tints over a land such as fairies might have builded. The rushing, tumbling torrents of the Cascades pour their enormous volume over a bed covered by electric bulbs, and from the quiet pool of Geyser Basin are reflected as in a mirror. Electrolights of French design are lavishly scattered beneath the trees, and from their clear rays the fields of flowers are seen in added hues.

CAMPBELL (THE ORCHARD CITY)

Lies 50 miles south of San Francisco, on the Santa Cruz Division of the Southern Pacific Railway, and is the central point of the most fruitful, diversified and scenic section of the famous Santa Clara Valley. Superb electric car service places it within but a few minutes' ride of San Jose, the metropolis of the valley, Los Gatos, the Gem City of the foothills, Congress Springs, the medicinal virtue of which waters is unexcelled; Saratoga another beautiful foothill city, and as you ride past and through the thousands of orchard and vineyard homes, and merge into the picturesque canyons of the foothills of the evergreen Santa Cruz Mountains, you can but exclaim: "This is a goodly heritage!"

SCENERY SUPERB

With the Santa Cruz Mountains to the west and south and the Coast Range on the east, a majestic amphitheater is formed, the beauty of which can not be excelled anywhere. Campbell has an altitude of 100 feet. The cool breezes from San Francisco bay at the north insure an even and comfortable temperature throughout the summer months, while the waters are warm and pleasant. Flowers bloom out of doors the year around.

FINE ROADS AND RESORTS

The Santa Clara Valley boasts of the finest roads to be found in the State. It has over 350 miles of sprinkled runways. In attractions for tourists the Santa Clara Valley can not be surpassed. Thirty-two miles eastward over a magnificent mountain road is the famous Lick Observatory on Mt. Hamilton, 4,444 feet above sea level. There are numerous mountain retreats within two hours' drive for those who love the camp and the sparkling brook. The sea beach to the southward 27 miles by rail or carriage drive, and through the most beautiful mountain scenery in the world. The Santa Cruz Mountains, twenty feet in diameter and two thousand years old, will furnish a delightful day's outing.

EDUCATIONAL ADVANTAGES

Campbell has a population of about 600. It maintains a high school which distributes to 3,000 patrons, covering over 20 square miles of orchard homes. There are two churches—Methodist and Congregational—a first-class High School and Graded School, and within a few miles are two Universities, two Colleges, a State Normal School and several Business Colleges and private schools. The Stanford University, with its many-story architecture, is only 20 miles away.

NO SALOONS

Campbell has a complete water system of its own. It has electric lights and power for mechanical purposes, which is distributed throughout the orchard district. A telephone exchange serves over 40,000 people. A prohibitory clause in all deeds to property within the town limits, prevents the saloon from being established.

BUSINESS INTERESTS

Campbell has the largest fruit packing and drying establishment in the world, the best equipped cannery on the coast, catering to the highest class export trade, a fruit syrup establishment, lumber yards, planning mill and stores of all kinds. It also has a weekly newspaper and modern job printing plant. The Bank of Campbell, with individual deposits amounting to a quarter of a million dollars, is a fair indication of the prosperity of the community.

FRUIT CENTER

Campbell is pre-eminently a fruit center, and offers unusual opportunities for profitable investment, whether it be a large commercial orchard, a chicken ranch, or a small orchard home adapted to those who want to earn a few hundred dollars a year to supplement a limited income or annuity. The Campbell fruit district is noted for the quality of its fruit, and for this reason has become a trade center. The man with a few boxes of fruit has the same opportunities for selling his products as the man with many tons. Our large packing and drying establishments will have their agents at your door before the fruit begins to color.

INTERURBAN CONDITIONS

Campbell is neither urban nor suburban, but is in fact, as well as in name, an Orchard City—a city of orchard homes, where all the conveniences necessary for 20th century comfort. The demand for intelligent labor is increasing every year, and families desiring profitable employment in orchards, packing houses and canneries find this an ideal home.

LAND VALUES MODERATE

Acres can be secured at various prices. Bare land, suitable for chicken ranch, hay, grain or vineyard, can be secured for \$1000 per acre. Productive orchards sell for from \$200 to \$500 per acre, depending on the record of the orchard for productivity. In buying an orchard here you do not buy a pig in a poke, facts and figures will be given you, showing what returns can reasonably be expected from your investment.
